INSTRUCTION MANUAL CANDLE WARMER LAMP

Customer Service: support@makytwow.com

IMPORTANT SAFETY INSTRUCTIONS

When using electric products, basic precautions should always be followed, including the following:

- DO NOT LIGHT CANDLE WHEN USING CANDLE WARMER LAMP.
- Do not operate when the appliance is not working properly or when it has been damaged in any manner.
- The glass lamp shade is hot when turned on. Do not touch it at anytime.
- Keep lamp away from flammable materials.
- Turn off, unplug and allow lamp to cool before replacing the GU10 bulb and before cleaning (use a soft cloth)
- Do not attempt to move candle warmer lamp with melted candle.
- To protect against risk of electrical shock do not put cord, plug or lamp in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter.
- To disconnect, grip plug and pull from wall outlet.
- Never pull on cord to disconnect.
- Do not use appliance for other than intended use.
- Do not leave appliance unattended when in use.

FOR ADULT USE ONLY. THIS IS NOT A TOY AND IS NOT INTENDED FOR USE BY CHILDREN. KEEP OUT OF REACH OF CHILDREN.

Tips :

- The candle's surface slowly melts after 3-5 minutes when powered on.
- Recommend use: 2-4 hours each time.
- Trim the remaining candle wick once the wax has cooled and solidified.
- If candle wax spills on candle warmer use a plastic spatula or credit card to scrape the wax off. Use a paper towel to rub off any remaining wax.
Do not use metal or any other sharp objects to scrape off melted wax.
- When scent starts to diminish from your candle, melt 1 inch of candle from the top and pour melted wax into an empty metal or glass container and discard.
